Post Script Files
We accept PostScript ready files that have been written with our Apogee print driver.

PDF Files
We accept PDF files that have been made with our print driver and then using acrobat distiller with Job Option settings for our equipment.

Fonts
MAC: Include both printer and screen fonts of **all** the fonts that you used in your document.
PC: Send all *.ttf files for TrueType fonts and both *.PFM and *.PFB components of Type1 fonts.

Color
All images need to be saved in cmyk.
Remove unused colors from document and change all the remaining colors to process.

Spot Color
Remove unused colors from document and change the remaining colors to spot.

Media
CD Rom, DVD, 100 & 250 MB Zip Drive, Jaz 1G, Jaz 2G (pc only).

Email Transfer
Files under 5 mb can be emailed to: mail@theprinters.com
Please compress files before emailing to protect them from being corrupted.

FTP Transfer
We have FTP available for our clients. Please call.

Compression Software
Winzip - PC users. Download from the internet at www.winzip.com
Stuffit - PC & MAC users. Download from the internet at www.aladdinsys.com

Laser Copies
All jobs should be accompanied by full-size, color broken and composite laser proofs to assure accuracy of output. Color proofs are very welcome here at theprinters.com

For more detailed information you may contact Bill Brickley at 1.814.237.7600, ext. 21, or Imaging Department at ext. 17.
